¹ Lower rates are better
² Cigarette Smoking Prevalence performance is color-coded red/green based on prevalence performance only. It is possible for a CCO to receive credit for this measure without meeting the prevalence target.
³ Colorectal Cancer Screening, Prenatal Care, and Postpartum Care are based on CCO chart review on an annual basis.
⁴ Denominator based on December 2017 Physical Health Enrollment by County report; Numerator based on FIVE tier counts. Tier One: 0; Tier Two: 265; Tier Three: 11,559; Tier Four: 8,588; Five Star: 5,373.
⁵ There are no filter-specific targets for the CCOs once filters are applied; the targets remain CCO level. Targets only displayed for incentive measures when filtered by one CCO. If there is no target for an incentive measure, benchmark is displayed.
⁶ EHR adoption rates may be greater than 100% due to the adjustment factor methodology. Rates greater than 100% will be capped at 100% for any public reporting on this measure.
⁷ Both immunization measures (CIS and IMA) represent the time period of January 1, 2017 - December 31, 2017.
